In 1999, writer Vladimir Megre presented a new, original way of development of Russia – “Family Homesteads”. There is a huge interest in the idea of family homesteads in Russia and in the world – the books were published with a circulation of more than 11 million copies and translated into 25 languages. The idea aroused the interest of the UN, Vladimir Merge awarded Gusi Peace Prize – most prestigious Awards of Asia. The number of settlements consisting of family homesteads has increased from 250 to 300 very quickly. “Rodnaya Partya” (Native Party) with the family homesteads program has collected more than 65,000 signatures in elections to the State Duma of the Federal Assembly of the Russian Federation in a few days. In the State Duma was considered the Draft Federal Law on Family Homesteads and in the Belgorod and Bryansk regions has been adopted and applies the relevant laws.
